To our respected customers and  
all other lovers of flowers!

Have you never heard about the glorious Holland flower cultivation, have you never wanted to have these wonderful flowers in your own garden and home? Perhaps you thought that the bulbs are too expensive, but just have a look at our catalogue, and you will be astonished at the low prices.

We are in joint interest with the Holland growers; we furnish genuine Holland bulbs and the bulbs have been handled at one profit only. Our firm is the world's largest supplier of Holland bulbs for the private garden for every country on the globe.

In this catalogue you see the princely Tulips, the stately Hyacinths, and the other charming flowers ON PICTURES, but now change it into REALITY.

Just inspect your garden; here a corner for a bed of Tulips, yonder a small spot for a border of Hyacinths or a group of Crocuses. Now all is empty and lifeless, but presently, already in March, the eternal wonder of nature will be repeated, and with attentiveness and interest you will watch daily the steady growing and flowering.

Do not deny yourself this real pleasure; you can't have any objection at all, low prices, prime quality, firstclass service.

Give us a chance to make friends with you and send us your order; we shall be careful that this friendship will last for a long time to come.

Yours respectfully

## Flowers for Christmas and the New Year

### Compact, delicately-scented CHRISTMAS HYACINTHS Compared with their beauty they are extraordinarily cheap

By a special preparation we have developed the flowers, which are in the bulbs we are going to dispatch, so far, that they will produce by Christmas, their heavy, noble delicately-scented flowers. They may be planted in pots, baskets and boxes filled with earth, as well as in bowls and jardinières, filled with gravel, where they can be brought easily into flower. These Christmas Hyacinths remain in full bloom for at least five weeks, so that they may be enjoyed for a long time.

### Charming Roman Christmas-Hyacinths

These "Romans" are one year younger than the above mentioned compact Christmas-Hyacinths, therefore they do not produce such flower-clusters, but they are nevertheless most charming and graceful. They are specially prepared to flower by Christmas and they can be brought into flower with playful ease. Planted in pots and boxes with soil or in bowls with gravel they will give you great pleasure during this happy time. **Roman Christmas Hyacinths**, p.3 \$ .30,

# POPULAR CHRISTMAS TULIPS

For a little money you can get beautiful baskets for the Christmas-tree

Of old, the Christmas decorations included baskets and pots of Tulips; now in place of the small, tiny red and white Tulips of former days, we offer for the same price, the undermentioned big Tulip flowers in the most refined colors. These Tulips can be brought into flower, in pots and bowls filled with ordinary garden soil, with playful ease, whereas the special quality guarantees the best results at Christmas.

## DELIGHTFULLY FRAGRANT CHRISTMAS NARCISSI

## Paperwhite Grandiflora

Popular Bunch-Narcissi which grow and flower to your hearts content in gravel

Take a dish or bowl, put some gravel at the bottom and place the bulbs thereon. The space between the bulbs can be filled with gravel. Then, pour some water into the bowls and simply place them in the light. Soon after the Narcissi will start to grow and all that is necessary then is to add some water from time to time and wait until the marvellous fragrant flowers show themselves. The later in the season the quicker they flower, with the result that the bulbs planted like this at the end of November are already in flower at Christmas. These **Paperwhite Grandiflora** produce large bunches of pure white flowers and cost

# LONG-STEMMED DARWIN TULIPS IN 25 CHOICE VARIETIES

They flower in the beautiful month of May and produce cutflowers par excellence! The most refined choice-varieties, much cheaper than the ordinary varieties formerly!

Bright cardinal red rare novelty "Victoire d'Oliviera"

With the Darwins the Tulips have reached the highest stage possible and they are therefore the flowers of to-day and likewise the flowers of to-morrow. The very large flowers in the most refined colors and shades are borne by fine and tall stems and there is no other flower that can compete with the Darwin in the decorativeness of its effect in beds and borders. They flower during the whole month of May, in a time when it is a real enjoyment to remain in the garden. Subjoined and on next page you will find the 25 most beautiful choice-varieties. The bulbs are fully guaranteed to be of prime quality and true to name.

The varieties marked \* are suitable for indoor-cultivation. Darwins, however, should only be forced if one has had some experience in forcing and a conservatory or a glass-house at one's disposal, as failures are not uncommon if forcing takes place indoors. The single and double early Tulips on pages 10 and 11 are easier and surer to force and therefore they are more suitable for this purpose. They are the very Tulips for forcing indoors.

## SPECIAL AMATEUR COLLECTION OF DARWIN-TULIPS

Undoubtedly one of the most beautiful collections in this catalogue for the amateur gardener. With this collection the garden can be made into a veritable fairyland by scattering the various varieties in groups about the garden; especially along the footpaths and in front of underwood the effect is most picturesque and the delightful flowers can be seen at their best. The wealth of flowers offered to you in this magnificent collection will keep you occupied for hours, choosing which variety, in your opinion, is the most beautiful. ## Robust DARWIN TULIPS for Beds and Borders

**Very cheap offer in separate colors for the large mass of Garden Owners**

Many flower lovers do not attach so great a value to the names, but on the other hand they are very much interested in certain colors. For them, this is the offer they are looking for. You will find in this offer the same large, beautiful flowers as when you order the separate varieties, but at a much lower price, because it is easier and more advantageous for us not to be bound to certain varieties. Darwin Tulips create a certain distinction in your garden, because of their unequalled beauty. Properly speaking, they give that kind of charm that really fascinates the garden-owner. It is by their natural elegance that they can be used successfully for every kind of garden planting, and your garden will never look severe with them. Groups, beds, borders and edgings, filled with Darwins are always an ornament in your garden; at the same time they provide your house with excellent cut flowers. The prices of these Darwins are so low that everyone can obtain them for their garden. The prime quality and beautiful varieties will produce the finest flowers imaginable and their grace and beauty will surely exceed your wildest dreams.

**Flowers - Welfare - Feeling of personal worth!**

It is a matter of fact that during the present hard times, one being forced to curtail general expenses, the garden gets neglected. It is logical that one economizes on the expenses of flowers, but this should not cause the garden to deteriorate. This would be an economy the wrong way round, which must be condemned severely. The garden presents a certain standing to its possessors, flowers in your rooms betray a certain welfare, whereas the neglecting of these things can only be done at the cost of both standing and welfare, which must be upheld under any circumstances. A well-kept garden and flowers in your home give the owner a feeling of personal worth, which should not be missed nowadays. Economize on your expenses for flowers and garden, but do not miss them at all!

## EXTRA CHEAP RAINBOW MIXTURE OF DARWIN TULIPS

**Innumerable varieties, colors, and shades!**  
**The best of all cut flowers!**

The enormous number of different shades, colors and varieties to be found in this mixture gives a wealth of color which must be seen in order to be believed. Just imagine, in the Darwins alone there are 70 varieties in red! And then there are so many other colors beside red. There are blue, violet, pink, brown, black and others in every imaginable tint and shade. Now to leave the colors and to concentrate on the flowers themselves. They are superbly shaped, immense, robust, and elegant, in other words glorious flowers upon tall, strong stems. It is these tall strong stems which make the Darwins the best of all cut flowers. Put them in a vase and you have the loveliest bouquets imaginable, bouquets to beautify the whole house. And yet, in spite of their incomparable beauty, these Darwins only cost very little, in fact you are paying practically nothing for them. However low the price may be we guarantee the bulbs to be of the very finest quality. # Magnificent Novelties of Mayflowering COTTAGE TULIPS

THE EVER ZEALOUS CULTIVATORS ARE ALWAYS SEEKING AND TRYING TO IMPROVE AND ENRICH THIS OLD RACE WITH THE MOST SPLENDID NOVELTIES

The improvements which have been achieved in this old race in the last few years are almost incredible. They flower later than the Darwins and conclude the beautiful Tulip-time. The flowers are exceedingly graceful and often lily shaped, whereas the colors are not to be found in any other Tulip race. Next to their excellent attributes for garden decoration these Cottage Tulips produce cut flowers of uncommon charm and attractiveness. Although the undermentioned choice varieties are the pick of the race, we kept the prices as low as possible for this prime quality.

# NEW BREEDER TULIPS

## The aristocrats of the Tulip World

These Breeder Tulips are the ones that can glory in having the oldest pedigree. In former days they were the most popular Tulips until the Darwins supplanted them. Nowadays, however, they are becoming more in demand again, as this species possesses a wealth of color which is not to be found among the Darwins. They produce tremendous flowers on long, strong stems in the most beautiful colors imaginable. They look very pretty before shrubs and in between the plants of a border. The subjoined varieties are splendid novelties, reflecting honor to this old species, and produce excellent cut flowers.

### Wonderful novelty "FANTASY"

A fantastic Parrot Tulip on a long strong stem

"Fantasy", the name of this rare novelty, is very well chosen; for until now such a flower only existed in the imagination. But truth is often stranger than fiction, and fancy has become reality. It belongs to the family of the Parrot Tulips, but has a much longer and stronger stem and the flower is much larger and more robust. It is most fantastically shaped, the petals are on all sides serrated, notched, horned, fringed and scalloped, in a word "fantastic". It is of an exceptionally warm pink color and the back of the petal is apple green. It is ideal for beds, groups and edgings and produces the finest cut flowers. Prime quality at a very advantageous price. Per 3 \$ .35, per 12 \$ 1.30, per 50 \$ 4.80

# PICTURESQUE REMBRANDT TULIPS

## UNEQUALLED JEWELS

These Tulips, which are rightly named after Rembrandt, that Prince among Painters, are characterized by most uncommon colors. Every color is marbled with picturesque, fantastic, entirely arbitrary stripes, veined edges and other peculiar marks. The flowers themselves are also very beautiful, large and elegantly shaped; in short, these qualities, in combination with the picturesque shades, make them well worth a place in your garden; they are ideal cutflowers.

## FANTASTIC PARROT TULIPS

This Parrot Tulip is not only a curiosity among its fellow Tulips, but also in the entire world of flowers. It has remarkably beautiful and fantastically shaped leaves with fringe-like, scalloped edges. The whole flower is so exceptionally beautiful and yet so peculiar that you will look at this natural phenomenon in genuine astonishment. They look lovely in the garden and we can thoroughly recommend them for bouquetting purposes.

## RARE FIMBRIATA TULIP "SUNDEW"

a striking novelty

This Tulip "Sundew" is a wonderful Darwin novelty. The wonderful thing about this "Sundew" is, that the edges of the petals are covered with innumerable little feathers, which make the petals look as if they were frayed. The color of this "Sundew" is a brilliant carmine red. It is very suitable for small groups in the garden and produces excellent cut flowers. As we are cultivating quite a lot of this novelty we are able to supply them at a very low price.

# Massive, double early flowering Tulips in 20 choice varieties

Tulips resembling Roses! Exceedingly beautiful for beds, borders and groups, unsurpassed for rockeries, window- and balcony boxes

A real wealth of flowers composed of different varieties of double early Tulips

Very early in Spring, when we do not even think of Roses budding, these double early Tulips are already flowering and in their beauty do not yield even to the Rose. The flowers are large, filled to the core with petals, and the stems are straight and strong and surrounded by upright, dark green leaves. They are perfect flowers for beds and borders, and their massive and robust build makes them suitable for rockeries. They are also very suitable for window and balcony boxes in early Spring. They can stand the roughest Spring weather. Subjoined are the 20 most beautiful choice varieties at very popular prices.

## NEW TRIUMPH TULIPS

This is a new species forming the transition between the Mayflowering Tulips and the Early Tulips. It has been obtained from a cross between the long stalked, robust Darwin Tulips and the Single Early Tulips. They have the long stalks of the Darwin Tulips, but the flowers are generally larger. They flower towards the end of April and are suitable for indoor cultivation.

# RARE BOTANICAL TULIPS

TULIPS IN THEIR WILD AND ORIGINAL SHAPE. IMPORTED FROM ASIA

The under-mentioned Tulips are some of the most interesting varieties found in Asia, and imported from there have been cultivated only one year in European soil to get used to the soil itself and the climate. As they were found on the mountains they look prettiest in the rockery, though planted in small groups they will do as well.

**Chrysanthia**, very graceful little flower per 3 per 12 per 50 on a thin stem, inside buttercup yellow, outside terra cotta orange with thin yellow edge . . . . . \$-.30 —.95 3.50

**Clusiana**, very slender, elegant, pointed flower on a tall stem of 16 inches high, outside fraise with white edges, inside pure white with violet heart . . . . . \$—.25 —.90 3.30

**Eichleri**, large, robust, pointed flower of glossy scarlet-vermillion red color, veined with green beige . . . . . \$—.40 1.40 5.20

**Kaufmanniana**, resembling Water-lilies when open, inside sulphur yellow, outside creamy yellow with carmine red stripes \$—.35 1.25 4.60

**15 for \$ 1.35**

## MIXTURE OF RARE BOTANICAL TULIPS

Besides the above offered varieties we have imported yet other varieties, which are all supplied in this mixture. There are lovely little and also big robust flowers, which when planted in rockeries or small groups will represent some of the most beautiful wild flora of Asia. Mixture of Botanical Tulips, per 3 \$—.30, per 50 \$ 3.50

**12 for \$ —.95**

## Dazzlingly beautiful Forsteriana

These Tulips were imported last year from Boekhara; this is a part of the republic of Oesbekistan in Asiatic Russia. A Tulip like this, growing wild there, is more beautiful than the most beautiful Tulip that we have been able to cultivate. Notwithstanding all the means of serving our purposes of improvement, Nature is and always will be our Master. "Forsteriana" is the largest Tulip in existence! This gigantic long and yet graceful flower is of real dazzling, vermillion red color with deep orange shade. There are no other flowers having such an immediately blinding color. Both the flower and color are magnificent, and it is impossible to describe the real beauty. For rockery and other garden decoration. **Forsteriana**, each \$—.80, per 3 \$ 2.—, per 12 \$ 7.—

## Cheap rainbow mixture of all kinds of Tulips

Concluding our several Tulip-offers here is a mixture in which we have put all remnants and varieties, so that every species of Tulip, without exception, is represented; it is a motley mixture of early and late varieties, tall and small varieties, light and dark varieties, in other words, "something of everything". We can recommend this mixture to mixture lovers, for this is the **mixture of mixtures**. This **rainbow mixture of all kinds of Tulips**, per 25 \$—.85, per 500 \$ 15.—

## Regal Lilium Candidum (MADONNA-LILIES)

Beautiful and picturesque in any garden, whether it be that of a country-seat or farm, a villa-garden or a town-garden

They are robust and tall growing plants, on the stems of which the pure white chalices flaunt their beauty and also diffuse a delicate and delightful scent. They look noble and proud along a drive or avenue, in the borders of villas and stately mansions and exceedingly picturesque in the gardens of a country house or farm; the town garden seems to be larger when these magnificent flowers are growing there. They are ideal plants for indoor cultivation and are very easily and rapidly grown into large and sumptuous indoor plants of rare beauty. These Candidums are very cheap now and the quality is excellent. **Lilium Candidum, heavy selected quality**, each \$—.22, per 3 \$—.60, per 25 \$ 3.90

# BRIGHTLY TINTED DAFFODILS AND NARCISSI IN 20 CHOICE VARIETIES

The loveliest flowers imaginable to awaken the garden to new life with their gay, bright colors in the early days of Spring!

The principal colors of the Daffodils and Narcissi are yellow and white, which gives them a place of their own in the world of flowers. They require little attention and give much pleasure, and take gladly to any soil. In the middle of March, when there is but little sunshine they make the dark garden look bright and cheerful with their brightly tinted flowers, whereas they make the finest cut flowers for your home. They are the real children of the sun. The untiring efforts of bulbgrowers have succeeded in reaching extraordinary results in the cultivation of Daffodils and Narcissi. These results culminate in the really rare and beautiful varieties in the undermentioned offer. Recommended for any garden decoration, loosely scattered over the rockgarden or planted closely in groups. Planted in balcony or window boxes they always make the same lovely effect. Prime quality at rockbottom prices.

## EXTRA CHEAP DAFFODILS AND NARCISSI FOR GROWING WILD

The garden can look quite attractive early in Spring, if there are only plenty of light colored Daffodils about!

Everywhere, in every corner, below hedges, under trees and bushes, on wet and dry ground, anywhere and everywhere these Daffodils and Narcissi grow and flower luxuriantly. Every spot that is dead and bare will sparkle with new life. These Daffodils and Narcissi are dirtcheap if your intention is to treat them as wild flowers; you will not be able to enjoy their delicate beauty for one year only, but if you leave them where they are, they will flower from year to year in greater and greater quantities every Spring. You simply take a stick, make a hole in the ground, throw in a daffodil bulb and you need not take anymore notice of them. Prime, 100% guaranteed flowering bulbs, at rockbottom prices.

## POETAZ-NARCISSI

### New large-flowered improved Bunch-Narcissi

In these Poetaz Narcissi you will find the formerly well-known and popular Cluster Narcissi. But they have been improved enormously and are much larger and far more beautifully shaped, the colors are brighter and more striking, whereas they have preserved their lovely scent. They are very easy to bring into flower indoors but also they are very suitable for small beds, groups and edgings in your garden. Furthermore they will do very well in window and balcony boxes where they will display their beauty for weeks at a stretch on account of their strong build.

## Compact Hyacinths for glasses

**Heavy, specially selected mother-bulbs for window decoration during the winter.**

The cultivation of Hyacinths on glasses is very attractive and interesting. Attractive, because they flower in the first three months of the new year, when outside the winter is still reigning; then they look so friendly in the windows where they display their unsurpassable beauty not only for you but also for passers by. Interesting, because in this way of cultivation one is able to note their progress each day. Firstly the growing of the roots, then the development of the flowerheads and lastly one enjoys the beautiful compact flowerbunches. Motherbulbs, selected especially for that purpose are supplied in special varieties, so that a failure is out of the question. Success is surely a fact if one takes the old proverb to one's heart: "More haste, less speed"; they do not like — as a lot of laymen like — to be pushed into flower. It is therefore advisable to keep to the directions for cultivation.

## Robust Hyacinths for Beds and Borders

**Special bargain in different colors for the large mass of garden owners**

Their early flowering makes Hyacinths indispensable to every garden worth a name! In early spring Hyacinths are the perfect flowers for your beds and borders, they are incomparable, and you cannot create such a charmingly decorative effect with any other flower. They have strong, robust stems and stand erect, whatever the weather, to the end of their flowering. Now especially is the time to buy Hyacinths, as the prices are very low, ridiculously low and you will have a beautiful show for your money. Choose your favorite colors from the subjoined list and make a picturesque combination of them in your garden for next Spring.

### IDEAL COLLECTION OF ROBUST BEDDING HYACINTHS

Especially recommended for a star-shaped or five colored bed. They also look extremely pretty in small groups, colored borders and panels along foot paths; a border of narrow panels is very picturesque, and the variation of bright colors gives the garden a gay and cheerful aspect in early spring. We supply, **10 Snow White, 10 Dark Red, 10 Sky Blue, 10 Pure Yellow,**

**10 Delicate Pink.** In all, **50 prime bedding Hyacinths**  
No. 25 in 5 beautiful colors, separately packed, for \$ 3.50

**50 for \$ 3.50**

### Dirt cheap rainbow mixture of Miniature Hyacinths for the garden

It is especially in the artistically laid out garden that a bed of Hyacinths in a rainbow-mixture looks so charming, but the mixture must be composed of every color possible. The cluster must not be too compact, so that the mutual colors show themselves at their best. These Miniature Hyacinths do not produce such compact clusters as the above offered Bedding Hyacinths, but nevertheless they are pretty and graceful. The price is exceptionally low, so that many flower lovers can avail themselves of this offer without going to too great an expense. **Rainbow mixture of Miniature Hyacinths, per 12 \$ .85, per 100 \$ 5.90**

**25 for \$ 1.55**

For window and balcony boxes and garden ornaments we strongly recommend the Hyacinths offered on the left of this page and the Hyacinths in varieties offered on the preceding page. The above-mentioned Bed-Hyacinths will also do; the only danger is that they droop in the bad weather. For this reason, it is better to spend a little more and take heavier bulbs of more substantial build.

# Large-flowered Crocuses. You may have a beautiful flower garden by March

## Cheap large-flowered Crocuses for the garden

Special offer in separate colors for the large mass of garden owners

We subjoin another offer in separate colors especially intended for those who do not attach so much value to the name, but have a preference for some one color or another. We can strongly recommend these flowers for beds, groups and rockeries. You can make your garden look lovely as early as March and April with these Crocuses, very cheaply. Prime quality at cut prices.

We supply **20** of each of the colors, mentioned before, in all, **100** prime quality Crocuses for the garden in **5** beautiful colors, separately packed for \$1.90 **100 for \$1.90**

## Crocuses in the most beautiful large-flowered choice varieties

Crocuses are the flowers to give life and charm to your garden

as early as March. They start growing at the beginning of March and you can make such lovely beds, groups and edgings with them. Of course, you must put some of them in the rockery where they will feel at home and stand out picturesquely. They are very satisfactory for balcony and window boxes. The best crop of the most beautiful choice varieties in prime quality gives us the occasion to offer them very cheaply.

### Extra cheap mixture of Crocuses for growing wild

Mixed colors and shades look very picturesque when the Crocuses are planted to grow wild. The more Crocuses you put in your garden the brighter and gayer it will look the next Spring and the sooner you will be able to enjoy your garden after the winter. The quality is the same as above, which means that they will flower 100% and yet they are cheaper again, many remnants having been put into this mixture. **This rainbow-mixture of Crocuses for growing wild**, p. 25 \$ .40, p. 500 \$ 6.- **100 for \$ 1.30**

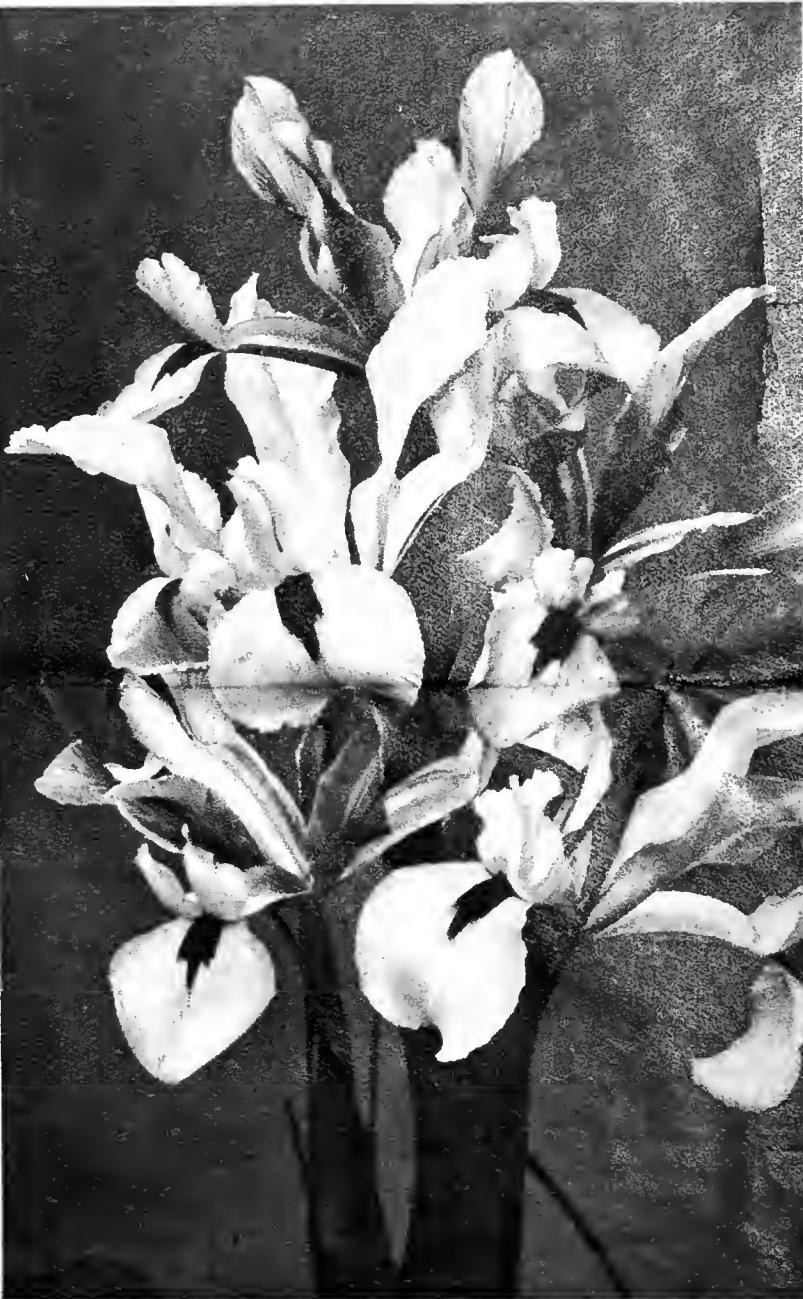

# LARGE FLOWERED DUTCH IRIS

Though brilliant flowers they are cheaper than cheap by overproduction

Dutch Iris belong to a new species, producing large, robust flowers towards the end of May. It is by their strong build and most beautiful colors imaginable, that they are the most luxurious flowers for beds, edgings and groups in the garden whereas they are magnificent for bouqueting purposes.

## Cheap rainbow mixture of large flowered DUTCH IRIS

The purest white and the deepest blue, the brightest yellow and the darkest interchange in this collection. It is a real alternation of colors. As they are so ridiculously cheap we recommend them for you to plant quite a lot in your garden. If you do so with a view to cut flowers, you will be more than satisfied. **Rainbow mixture of Dutch Iris**, per 25 \$ .55, **100 for \$ 1.90**

## Delightfully Fragrant JONQUILLA NARCISSI

Their many little dark golden flowers are exceedingly sweet and charming and exhale a delightful perfume. They are eminently suitable for forcing and with these Jonquilla's in the garden the air is filled with the sweet perfume of Spring as early as the end of March. **Single Jonquilla Narcissi**, per 12 \$ .75, per 25 \$ 1.35, per 100 \$ 5.10

## Motherbulb Crocuses for indoors

Specially for indoor-cultivation in saucers, bowls and boxes. They flower in the middle of winter

Crocuses are highly interesting bulbs, especially for indoor-cultivation, as they can be forced simply in boxes and jardinières with a little earth, as well as in saucers and bowls on a woollen rag or on wet moss. Furthermore these Crocuses are very suitable for growing in window and balcony boxes where they will show themselves at their best for weeks at a stretch. The quality of these Crocuses is so excellent that every bulb produces from 5 to 7 flowers; and they flower so easily that there is absolutely no fear of failure. Heavy selected motherbulbs at rockbottom prices.

# Fritillaria Imperialis

## Lovely majestic "Fritillary"

These are the real robust, majestic plants, also called "Fritillary" which produce their very large and extremely beautiful flower chalices in the early days of April. At the top of the stems closely wreathed with fine green foliage, are pending the large flower-chalices of a very fine shape, bearing the stamens in a very graceful and peculiar way. If placed in a sunny spot they can be left there for years at a stretch. Specially recommended for groups, beds and edgings and in front of shrubs and underwoods.

### NEW HALF DOUBLE ST. BRIGID ANEMONES

A magnificent species with large, half double, very graceful flowers on strong stems, resembling the large-flowered Ostrich Asters. In this species there exists a lovely color variation, the most refined colors and shades imaginable. **New half double St. Brigid Anemones,** per 12 \$ .55, per 100 \$ 3.50

**25 for \$ .95**

## Large-flowered double Ranunculi

These large double, sumptuous flowers, resembling Roses, grow from spider-shaped bulbs

Some time after these typical spider-shaped bulbs have been planted (remember, legs downwards) the finely chiselled green foliage makes its appearance above the ground and somewhat later the numerous stems with their enormous quantity of buds follow, and one large double flower after another opens out until they form a veritable sea of flowers. They are ideal flowers for rockeries, beds, edgings and groups, and they are of uncommon beauty and elegance as cutflowers. For Northern States we advocate early spring planting, for the Southern section of the country fall planting is best. Large-flowered double Ranunculi, genuine French-Hybrids, in a wealth of colors, which surpasses all description, very best quality. **Per 12 \$ .55, per 100 \$ 3.50 25 for \$ .95**

## Colorful single Anemones

### Extremely popular

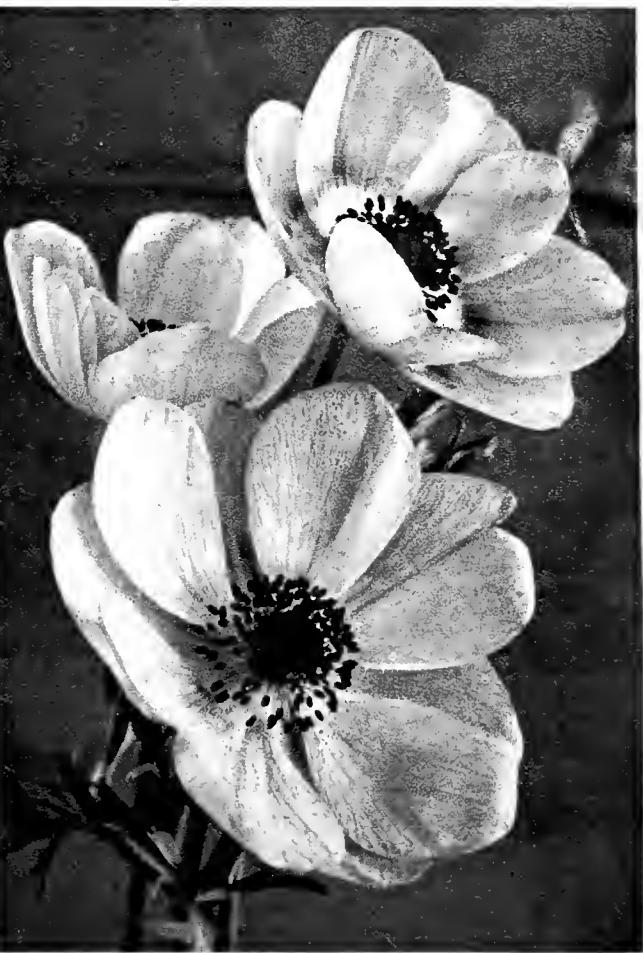

For Northern States we advocate early spring planting, for the Southern section of the country fall planting is best. They grow in any soil, and produce heaps and heaps of flowers in all sorts of shapes and colors

# Exceptionally delicate IXIAS

Bouquets of several cups  
in the loveliest colors

Ixias are exceedingly sweet and that is why the flowers as well as the colors are so charming. It is a pity that their beauty is not fully appreciated, because they are so unknown. You rarely see them in a garden, while they are worth a place in every garden. They are indeed very beautiful for groups, beds and small edgings and very suitable for bouqueting purposes. They grow and flower anywhere and everywhere and are moreover very cheap. Order some of these Ixias and you will be very pleased with them. In these Ixias every possible color is represented, and this wealth of color is displayed in the small delicate cups. The real ideal cut flowers, which are surely worth a place in your garden.

## Popular Grape Hyacinths "Heavenly Blue"

Pearls among spring flowers

Who does not know these Blue Grapes of Hyacinths "Heavenly Blue"? Who does not love their delicate flowers? The numerous, small, blue, coral shaped pearls, edged with white, which grow close to one another at the top of the stem, occupy a place of their own in the world of flowers. You can make the most beautiful edgings and groups with them; they look charming in the rockgardens and they also look very pretty beneath trees and shrubberies. This Heavenly Blue is a magnificent sky-blue variety with luxurious long flower-clusters Grape Hyacinths "Heavenly Blue", per 12 \$ .35, per 100 \$ 1.90 25 for \$ -.55

## Rare Fritillaria Meleagris Guinea Hen Flowers

These Fritillaria were before the war one of the most popular lines in our branche. After 1914 they have nearly no more been cultivated. The younger generation is not likely to know these remarkable flowers. They attain a height of about 40 cm. and bear at the upper end of the stem a bunch of pending calices, strongly resembling a snake's head. To be recommended for beds, groups and borders. They grow anywhere and everywhere, and as cut flowers they are really wonderful. Rare Fritillaria Meleagris, per 12 \$ .40, per 100 \$ 2.50

25 for \$ -.70

## Colorful Sparaxis

The most contrastful colors in each flower

Sparaxis bears on the very thin stems, surrounded by small light green foliage, several gracefully shaped cup-flowers. The heart of these flowers is pure yellow edged with black. The flower itself is red, violet, brown and orange, briefly all colors imaginable. They flower at the beginning of June and are very excellent for beds, groups, edgings and rock-gardens, very suitable for indoor cultivation too.

## Scilla Siberica

Very charming and popular

These Scilla Siberica look very sweet and charming in the room in winter. The little bunches of bright blue flowers give so much variety to the surroundings and help to create a summer atmosphere in the home in the middle of winter. They also look attractive in the garden in groups, beds and borders, and especially in rockeries. We have cultivated so many this year and the results have so far exceeded our expectations that we are able and glad to supply you with the finest quality at a price which has never before been so low.

# WINTER ACONITES

(ERANTHIS HIEMALIS)

**Indispensable for the rock-garden. They flower as early as February**  
These Winter Aconites flower exceptionally early and although they only grow very low, they look very charming indeed. The green, wreath-shaped leaves, above which rises the stem with its buttercup yellow flowers make a carpet of greenish yellow, if the bulbs are planted about 4 inches apart. Lovely for beds, groups, edgings and rockeries. **Winter Aconites**, per 12 \$ .40, per 100 \$ 2.30

25 for \$ -.65

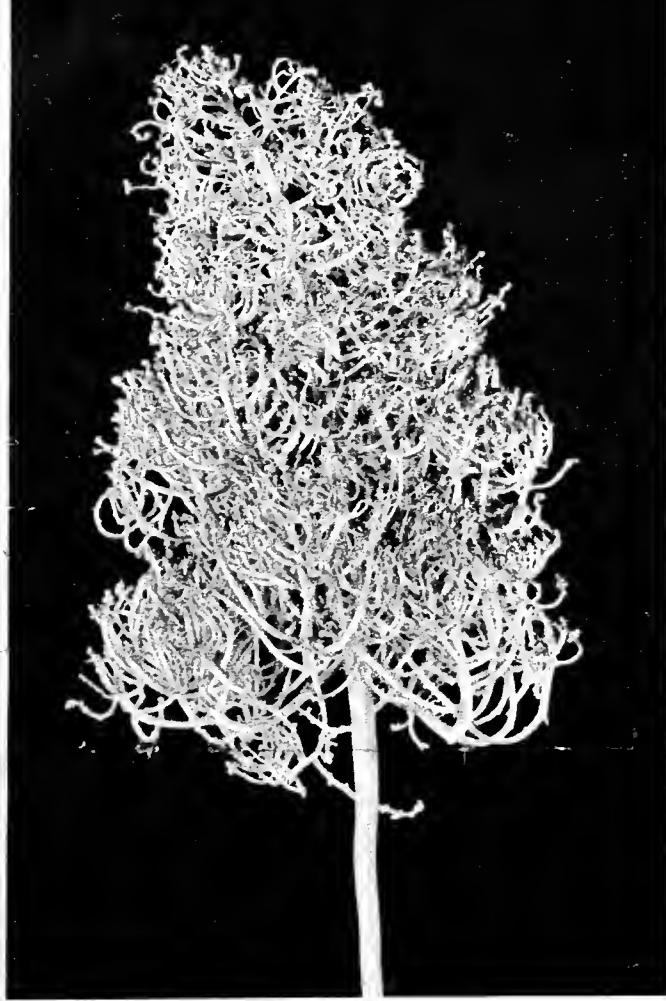

# SCILLA CAMPA-NULATA

They produce very elegant flowers in pyramid form

This flower is an improvement on the well-known blue Wild or Wood Hyacinths. A tremendous number of very elegant loose pink flowers, resembling Hyacints, in pyramid form on strong stems. Most satisfactory between and under shrubs, trees and bushes; a fine flower too for rockgarden and indoor cultivation. **Scilla Campanulata**, per 12 \$ .35, per 100 \$ 2.10

25 for \$ -.60

## Ostrich-feather like Hyacinthus Plumo-sus

A marvel of nature, seldom seen in the States

This remarkable specimen flowers in clusters of purplish blue flowers. Especially recommended for the rock-garden, where it will display the beauty of its brightly colored flowers to your full satisfaction. The whole will strike you by its particular appearance, as the above photograph well shows. It is woolly, compact and well-shaped, and produces a mass of the most charming little flowers. P.12, \$ .55, per 100 \$ 3.50 **25 for \$ -.95**

## Exceptionally popular Snowdrops

Too well-known to say much about them for they are the flowers that awaken memories of childhood and youth, the first flowers to comfort and cheer the sick and the earliest signs of new life upon the graves of our beloved ones. Indispensable for indoor-cultivation and the garden. **Exceptionally popular single Snowdrops**, per 12 \$ .35, per 100 \$ 2.10, per 500 \$ 10.00

25 for \$ -.60

## Genuine double SNOWDROPS

The cups of these double Snowdrops are filled to the core with petals. They are not only exceptionally beautiful but also comparatively rare. They are suitable both for indoor cultivation and for the garden. **Genuine double Snowdrops**, per 12 \$ .50, per 25 \$ .85, per 100 \$ 3.10

## Charming Chionodoxa

They flower in the early Spring. Lovely and charming flowers

In spite of cold and snow, they start flowering from about February or March, which gives them the nickname of "Glory of the Snow". They produce bunches of star-shaped flowers of a sky-blue color with white heart. These flowers are very lovely, charming and striking. They look very delightful and vivid in edgings and groups in the early days of Spring and they are quite at home in rockeries. They are also very suitable for indoor-cultivation.

## EXTRA CHEAP COLLECTION "THE ARTISTIC FLOWER-GARDEN"

**The ideal collection for garden-owners who want to have an artistic flower-garden, without too much expense.** To a pretty home, belongs a beautiful garden and the more beautiful the garden is, the finer and cosier the house will look. It is, therefore, necessary that your garden should be tastefully and artistically decorated and the exact composition of flowers chosen. We know by experience that patience and knowledge for the latter often fail. However, the subjoined collection is one that meets all demands of an artistic flowergarden. With this collection your garden will not be without flowers from March until June. The composition is such, that the colors of the flowers showing themselves at the same time, do not clash with each other, but harmonize. Furthermore you will be able to cut fresh flowers for your home, during these months. Although the same prime quality bulbs will be supplied as if ordered separately, we have reduced the price to the utmost limit in order to get a fair sale of this collection, which is intended as a big, appealing advertisement for our firm.
